

## Calf Care Accessories

PSS-066-Calf\_Care\_Accessories-01

**These calf care accessories** can be added to the Raised Calf Zone pens, the Standard Calf Zone pens or purchased separately.

Calf nutrition is essential to the growth and development of calves. Calves need liquid nutrition in the form of milk, calf starter grain and fresh water. The calf care accessories help you easily and safely provide all needed nutrients. They stay secure and are built for easy cleaning for the health and safety of your calves.

### BENEFITS

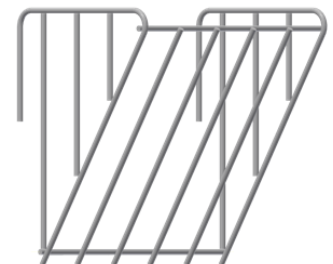

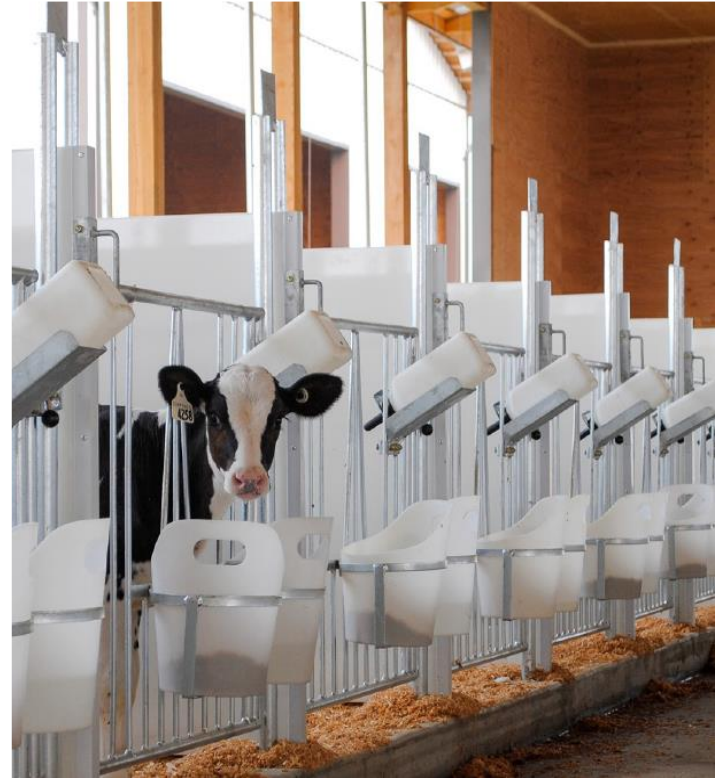

- Bucket holder base that prevents animals from pushing buckets through holder
- Spring-loaded bucket hold down mechanism that stops calves from tipping buckets and contents

### FEATURES

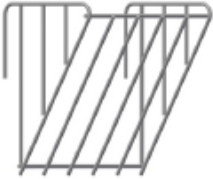

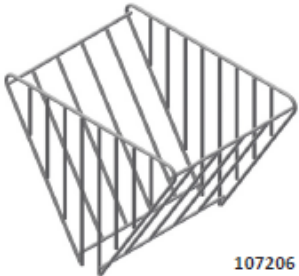

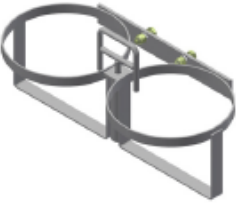

- The buckets are no-stick stackable for easy handling
- Bottle holders are designed to hold the bottles secure while the calf is drinking

### OPTIONS

- 2L or 6L bottle holder
- Single or double-sided hay feeder
- 5L or 10L no-stick stackable buckets
- 5 L or 10L bucket holders with bucket hold down mechanism
