

EXHAUST WINTER COVERS

PSS-085-WINTER_EXHAUST_COVERS-01

PROTECT YOUR EQUIPMENT AND YOUR COWS

Winter weather can raise havoc on your barn equipment. In tunnel and cross vent barns simply shutting off your exhaust fans isn't enough and shutters can be costly and in some situations ineffective.

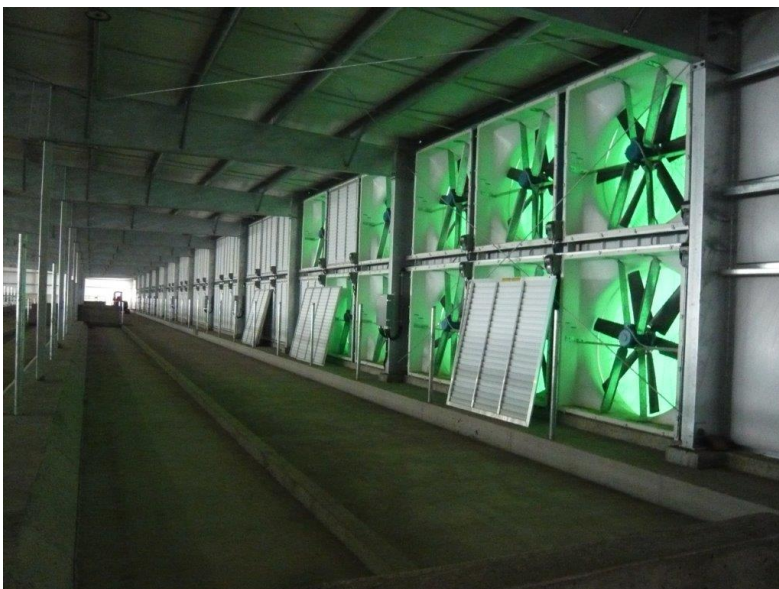

VES-Artex Winter Covers offer an affordable, easy to install, solution that not only protects your equipment from ice build up, it also helps to maintain your animal-centered environment by eliminating drafts.

The color of the cover is GREY - not green as shown

BENEFITS

- Helps to minimize winter drafts on your animals
- Protects your equipment from winter damage
- Easy way to cover the fans that will not be needed during the winter months
- Perfect for use on parlor and holding area exhaust fans, protecting your employees from drafts as well

OPTIONS

- Available for fans ranging from 12" to 84"

FEATURES

- Made from industrial PVC material - durable and long-lasting
- Good for temperatures as low as -30°C (-22°F)
- Ratchet straps for a secure fit
- Double layer outer hem for durability
